APPOINTMENTS NOW LIVE!

Branches welcome walk-ins from July 27th

We are pleased to announce that due to the updated Government Guidelines on social distancing, we are now able to re-open our branches from **Monday 27th July** for our walk-in customers. However, in order to keep both our staff and customers safe we will have made some changes to the way our branches will operate.

What to expect

To aid with social distancing we will be limiting the number of customers entering our stores at any one time. This will unfortunately mean queuing during busy times. We have also introduced sanitising stations for all customers to use on entry and for our staff to use in between customers. Walk-in's are recommended for those customers wishing to buy 2 or 3 top up items, those who need to return or exchange items or customers wishing to collect items previously ordered.

Appointments

Appointments are recommended for all new starters or those wishing to purchase full uniforms. We previously communicated your Schools' recommended appointment window, for new starters to book a fitting, we are pleased to now be able to open up this window to all pupils, both new and existing. Please visit our website to book an appointment.

Online

Our website continues to operate as normal, although extended delivery times have been advised by our external delivery companies. We recommend placing your order before **July 17th** for a pre back to school delivery

Unrivalled 120 day returns policy

Our industry-leading 120 day returns policy means you can purchase now with confidence, even if your child has a sudden growth spurt before the start of school.
