

# Beeslack Community High school

## Learner Pathways

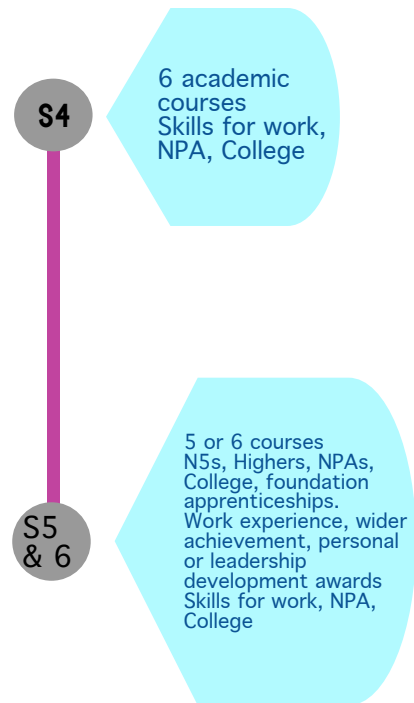

Activities integrated into the curriculum and our employability courses make pupils more aware of the opportunities and challenges in different careers. Our pupils have opportunities to personalise their curriculum from S3 onwards, with increasing specialisation as they progress through the Senior Phase. We want to ensure that all of our pupils move from school into a positive and sustained destination.

The pathways illustrated below help them to consider their options at this stage and plan their priorities.

### Pathway One Higher Education Focus

### Pathways Two and Three Further Education or Employment Focus

## Top Employability Skills

Literacy

IT/Digital Literacy

Problem solving

Communication

Numeracy

Working with others

Creative thinking

Time Management
